

A. Geography (30 points—2 point each)

Locate the following geographical locations on the blank map provided. Please use the corresponding letter to indicate your placement on the blank map. If a region, use lines. \

B. Chronology: (40 points—8 points each)

Place the following **FIVE** events in order from earliest [A] to latest [E] on this sheet. Then **write a sentence or two** in your Blue Book on the **historical significance of the event**. This could be in the form of explaining larger political and social trends such as setting the stage for future historical development or the advent of a specific empire or kingship Dates (exact or rough) and detailed information are useful in your answers.

C. Image Identification: (30 points—10 points each)

Write **2-3 sentences** on the **THREE** images flashing on the screen in your Blue Book. These images come directly from your Student Outlines found on the class website.

Your answer should:

- identify the object (what is the object “called”)
- explain roughly when it was created (date) and from which culture it originates
- provide a sentence or two on its historical significance
 - **Why** is this image important to helping scholars understand the civilization and **what** does it tell us?

D. Long Essay (50 points)

Write an essay that engages the following quote. Think broadly about the question and what you feel would best describe your own personal observations on the topic of Western Civilization. Your answer should draw from all units in the course
