Faculty News

Prof. Mufeed Mah'd, and three of his graduate students (Gueorgui Gueorguiev, Reena Ibrahim, Hetalben Patel) attended two training sessions on Feb 20-24, 2006 at National Instruments, Woburn, MA. The training is fully sponsored by NI with a total cost of \$10,760. This training is to provide necessary experience to setup the Software/Hardware (donated by NI and ADI) and Lab material for the Biomedical Instrumentation and Real Time DSP laboratories.

Prof. Prasad accompanied 13 students from the Dept. on the tour of the Advanced Device Center of Raytheon Co. on February 22, 2006. The invitation came from Dr. Abbas Torabi, who was joined by a team of 6 engineers.

Prof. Therrien, Prof. Akyurtlu, and Prof. Lu present their work at the Nanomanufacturing Center of Excellence poster and information session on February 17, 2006.

Prof. Akyurtlu is serving as a Reviewer for the 2006 IEEE Antennas and Propagation International Symposium and USNC/URSI National Radio Science Meeting to take place July 9-14, 2006 in Albuquerque, New Mexico.

Student News

March 8: Dean's List Reception. Kitson 309 at 3 pm

Message from IEE Student Chapter President, Marco Cinquini '06: With the start of the semester, the IEEE Student Chapter, which lay dormant for the past two to three semesters, began its transition both in appearance and in new members. The old, dusty, dingy floor now shines with a luster and most noticeably the walls have a new coat of paint! While there remains some minor configuring of additional PCs the room is fully functional and ready for use!!

Many thanks to the ECE department and UML staff for the painting and cleaning. Special thanks go to fellow students Michael Darish, Simmi Chaudhary, Emile Dagher, John Newton, Vivian Karavoulias, Stephanie Riddle, Radhames Martinez, Chimin Luu, Diep Vu for their help in moving the furniture and setting up the room afterwards!

The new IEEE web site can be found at:
<http://iee.caeds.eng.uml.edu/>

Department News

March 27: ECE Lecture Series:

“Defending Against Biological Terrorism,” by Dr. Timothy J. Dasey from MIT Lincoln Laboratory. This series is open to everyone and will take place in Ball 214 at 3:30 pm. Donuts and coffee will be served.

The first of the ECE Lecture Series on February 13, 2006 where Dr. McCarroll presented, was a great success with many faculty and students in attendance.
