Textbook and Supplemental Materials

Text:

*Physics for Scientists and Engineers – A Strategic Approach* by Randall D. Knight

**Vol. 1, 3rd ed.**, (published by Pearson)

There are a number of options for obtaining the text. Consider whether you are planning to take additional courses in the physics introductory sequence. This course will only use Volume One whereas other volumes of the text will be used for 95.144 Physics II and 95.245 Properties of Matter. There is a workbook which comes with one of the packages that is NOT required.

**Access Code**: You will need to purchase an access code for *Mastering Physics* specifically for the Knight text. This comes with the text packages mentioned above or may be purchased separately. Here is the link to Mastering Physics and the course ID.

[www.masteringphysics.com](http://www.masteringphysics.com)  Course ID: **MPNARAYAN71819**

In order to be in the course, you will need to buy access code to masteringphysics.com. The course textbook is highly recommended (either e-text or paper version).
