Revision Worksheet

Start by reviewing the assignment specs for all four essays. Choose which paper(s) to revise based on which assignment specs you understand better now than you did when you turned in your essays. Revision = re + vision, or a new vision; minor editorial changes will not improve your grade. Filling out this worksheet may help you develop a plan to present to me at your conference. If I okay your plan, I will specify a deadline for you to submit your revision. You must attach your original essay (with my notes and any rubric sheets) along with your revision.

What would improve your paper the most?

Content:

Organization:

Support (examples, details, research):

How could you improve the above three areas?

What drastic changes will you make?

What two things will you focus on to improve your sentence construction?
